Biologist

RE: American Consolidated Mining, Yellowhammer Mine,
DOE/045/026, Tooele County, Utah

On December 11, 1984, Tom Tetting, Wayne Hedberg, Dave Hooper and Susan Linner of the Division visited the site of the Yellowhammer DOE. There appeared to have been little or no recent disturbance. A small pile of ore may have been recently placed on a pad; however, total disturbance on the site is still less than two acres.
